

**Snow Summit and Bear Mountain do not rent helmets.**

We recommend our guests purchase their own helmet or visit a local rental shop in their area prior to your scheduled outing. Minors under the age of 18 should be accompanied by their parent to insure the helmet has been properly fitted.

Parents that are unable to shop for a helmet prior to their Childs visit, may sign a release allowing the purchase of a helmet from one of our Resort Sport Shops. Our shops carry Giro (Bell) Helmets ranging in price, depending on correct fit, from \$65 - \$75, not including your group discount of 20% off.

Organizations requiring helmets should plan ahead in preparing your outing by notifying the minor's parents so they have ample time to make arrangements for helmets.

We understand the time and effort it takes for group leaders in planning the trips. When your group members have their helmets before arrival it will take the burden off the leader.

It is our goal to get the group members processed and on the slopes in a timely manner so everyone can enjoy a fun day on the slopes.

Please contact us if you are interested in receiving information on the helmets we offer at our Sport Shops.
